

## **Checking your software is up to date (Payroll Year End 2017)**

---

### **Check your software is up to date**

It's important that you keep your software up to date by installing the latest updates available. These updates can contain new legislation, as well as feature improvements and fixes.

You can see what version of Micropay you are on at the top of the screen when you are logged in.

We recommend you take a backup before doing any update and you can download the latest version from our website:  
<http://downloads.pimbrook.ie/>

**For detailed instructions on running the update please follow stage 1 of our payroll End of Year Guide.**
